*If you are an importer or are considering importing  
in the future, this meeting is a must!*

Kathy Campanelli is the National Fastener Specialist for the CBP. Kathy will give an informative presentation that will cover the following topics and other related topics.

- ◆ What overall role does the CBP play in the importation and Exportation of goods?
- ◆ What process does an importer use to determine if duty is applicable to a specific fastener?
- ◆ What is the process when an importer is found to be importing under the wrong HTS code. (protests, Intl. Trade Court, penalties, etc.?)
- ◆ What role does a Customs Broker play in the importation process and what are their responsibilities in the process and to CBP?
- ◆ What new practices and innovations have been implemented at the ports to streamline the import process (10+2, X-ray)?
- ◆ What criterion does the CBP follow if they suspect an overseas supplier is shipping inferior fasteners?

There will be time left at the end of the meeting for Kathy to answer any questions you may have on the above and/or related topics.

Space is limited for this event, so get your reservations in early!
