

Two-Hour Safety Training 2010 Policy Year

CareWorks Consultants, Inc. and RiskControl360° are offering numerous two-hour safety training webinars and online training courses throughout the 2010 policy year (July 1, 2010 through June 30, 2011). These trainings allow employers to stay informed about current workplace safety trends and regulatory developments, all from the convenience of your own business or home. This two hour safety training is mandatory every policy year, per the Ohio Bureau of Workers' Compensation (BWC), for all employers participating in a group rating or group retrospective plan who have experienced a workers' compensation claim(s) within the two prior calendar years (January 1, 2008 through December 31, 2009) regardless of the claim's size or severity.

Webinars

These web-based presentations allow employers to interact with our presenters from the convenience of your own office or home computer. Participation in one webinar fulfills the two-hour requirement and a participation fee of \$40 is invoiced following the completion of the webinar. Each two hour webinar will be industry specific and will cover safety topics related to that industry. The industries and topics that will be presented are listed below. To view a full list with dates and times and/or to register go to www.riskcontrol360.com/webinar.

Manufacturing Industry: OSHA Recordkeeping & OSHA Inspection

- This webinar will cover all aspects of the OSHA recordkeeping regulations. It will also inform you of the purpose of an OSHA inspection, what to expect if one were to occur, and how to get optimal results from an OSHA inspection.

Construction Industry: Hand/Power Tool Safety & Personal Protective Equipment

- This webinar will cover common injuries caused by power tools, identify ways to reduce and/or eliminate hazards through administrative controls, and will review proper use and maintenance of your personal protective equipment.

Commercial & Service Industry: Slips, Trips and Falls & Safety Programs for High-Turnover Businesses

- This webinar will focus on understanding how slips, trips and falls occur, identifying trouble areas, and how to eliminate these hazards. It will also explore creative ways to maintain an effective safety program, train employees, and minimize your risk for workplace injuries.

General Industry: General Office Safety, Employee Involvement & Safety Recognition

- This webinar will explain how to identify hazards in the workplace, get solutions to minimize the chances of an accident happening, the basics of a company safety program, and how to create employee involvement/support for your safety program.

Online Training

Developed for employers with unpredictable schedules, our online training site provides the ultimate convenience by enabling employers to access training 24 hours a day, 7 days a week. Participation in two, one-hour courses fulfills the two hour requirement and a fee of \$20 per course is payable by credit card. To see the full list of courses, go to www.riskcontrol360.com/training.

BWC Safety Training

BWC also offers safety training courses that meet the two hour requirement. For more information, visit the BWC Division of Safety & Hygiene website at www.ohiobwc.com. If you complete a BWC course and participate in a group administered by CareWorks Consultants, you are required to submit proof of completion. Certificates of completion should either be emailed to twohourtraining@ccitpa.com or faxed to (614) 495-5200. Make sure to include your company name and BWC Policy Number within the email or fax.
