Dear Valued Distributor:

The North Coast Fastener Association is pleased to announce their **5th Annual Distributor Social** on Thursday, May 2, 2013 from 5 - 8pm. This event will be held at the Crowne Plaza Hotel in Independence, Ohio. The NCFA Distributor Social has become one of the premier networking events in the fastener industry.

As always, this event is **FREE** to our distributor guests (*up to 5 employees, additional attendees will be \$25/pp*). Enjoy hors d'oeuvres and drinks (*2 drink tickets per attendee*) complementary of the fastener suppliers who support this event and the North Coast Fastener Association.

Prior to the NCFA Distributor Social, the NCFA will be hosting a panel discussion on "Challenges of the Current Fastener Business Climate." This discussion will be moderated by Eric Dudas of Fully Threaded Radio. The panel will include Simmi Sakhuja (Stelfast, Inc.), Bob Fawcett (Nucor), Dan Zehnder (Trinity Logistics), Don Shan (Solution Industries) and Steve Andrasik (Brighton Best Intl.). The panel discussion will take place from 4-5pm at the Crowne Plaza Hotel in a separate meeting room. There will be an opportunity for audience members to ask questions.

For planning purposes, it is extremely important that you pre-register for this event so we can appropriately identify attendees and accommodate food and refreshments accordingly. Please send the registration form back to the NCFA office by fax, email, or mail.

Come network with your valued suppliers as well as your industry peers. It is often said that once you are in the fastener industry you can never get out. If this is true, then networking with other people within the fastener industry could be one of the most important things you can do for yourself personally, as well as for your company. As the saying goes, "sometimes it's not what you know, it's who you know". So please, come join us and get to better know your fastener community.

We look forward to seeing you on May 2nd and thank you for your support!

Warm Regards,  
NCFA Board
